

NERC CIP Cybersecurity and Compliance Consultant

Job Title:

NERC CIP Cybersecurity and Compliance Consultant

Job Description:

Ampere is looking for a NERC CIP Cybersecurity and Compliance Consultant to join our team. The successful candidate will work closely with our clients to ensure compliance with NERC CIP standards and to enhance their cybersecurity posture.

Responsibilities:

- Provide consulting services to clients in the electric utility industry to ensure compliance with NERC CIP standards.
- Provide consulting services to hardware and software vendors who provide products and services to the electric utility industry.
- Conduct assessments of client systems and processes to identify areas of non-compliance or potential risks.
- Develop and implement remediation plans to address non-compliance or risks.
- Provide guidance and support to clients on cybersecurity best practices and standards.
- Conduct training sessions for clients' staff on cybersecurity awareness and best practices.
- Provide guidance and support to clients during regulatory audits and inspections.
- Keep abreast of industry developments and changes to NERC CIP standards and advise clients accordingly.

Requirements:

- At least 5 years of experience in NERC CIP compliance and cybersecurity in the electric utility industry.
- Strong knowledge of NERC CIP standards and requirements.
- Experience working directly for a registered entity or a regional entity.
- Strong communication skills, including the ability to communicate technical information to non-technical audiences.
- Ability to work independently and as part of a team.
- Ability to travel to client sites as needed.
- Certifications such as GCIP, all other GIAC certificates, CISA, CRISC, CISSP, and SSCP are strongly preferred.

This is a contract (1099) position. If you meet these requirements and are passionate about helping clients achieve compliance with NERC CIP standards and enhancing their cybersecurity posture, we encourage you to apply for this exciting opportunity.
