

MISSION STATEMENT

We secure the industrial world.

We help you protect your critical industrial control technology so it works safely, reliably - every time, all the time - now and into the future. Let us show you how to increase operational efficiency, reduce downtime, and stay compliant with regulations. We keep you ahead of your adversaries – and your auditors.

WHO WE ARE

- Premier global industrial physical and cyber security consulting firm.
- Experts in the intersection of security, reliability, and compliance.

CUSTOMER PROFILES

- Any regulated industry: electric, gas, water, chemical, ports, rail/shipping
- Other industrial sectors: manufacturing, mining, building automation, refrigeration
- Equipment and software manufacturers that need to ensure their products don't impact compliance for their customers
